

Social Security Works for NEW MEXICO

Report prepared by Social Security Works and Strengthen Social Security

AUGUST 2010

Acknowledgements

Social Security Works is grateful to the following for producing this report: Daniel Marans, a recent graduate of the Johns Hopkins University and a National Academy of Social Insurance Washington Intern, was the lead researcher whose commitment and excellence drove the project to its successful conclusion; and Frank Clemente, Alex Lawson and Judy Rein at Social Security Works. Kelly Olsen provided editorial support. Arloc Sherman, Senior Researcher, and Paul N. Van de Water, Senior Fellow, at the Center on Budget and Policy Priorities were very generous in providing advice and access to updated poverty data analyzed by the Center. Kirby G. Posey and David Getz, Survey Statisticians with the Income Statistics branch of the United States Census Bureau, generously provided data on the importance of Social Security as a source of income to household units. Alice Wade, Deputy Chief Actuary of the Social Security Administration, with the help of Virginia Reno, Vice President for Income Security at the National Academy of Social Insurance, graciously provided data on the value of Social Security's survivors and disability insurance. Graphic design was provided by Daniel Redding and Rachel Horlick of Magnetic State.

The mission of Social Security Works is to protect and improve the economic status of disadvantaged and at-risk populations, and, in so doing, to promote social justice for current and future generations of children as well as young, middle-aged and older adults. Social Security Works is a project of the Tides Advocacy Fund with generous support from The Atlantic Philanthropies.

The Strengthen Social Security Campaign is made up of more than 60 national organizations and many state organizations, representing more than 30 million Americans. The Campaign is united around core principles, which include that Social Security benefits should not be cut and, instead, should be increased for those who are most disadvantaged.

The data presented in this report speak volumes about the importance of Social Security to families, communities and state and local economies. We hope the report is useful to you as you work to strengthen Social Security in this 75th anniversary year. Please contact the Social Security Works Communications Director, Alex Lawson, if you have questions about this report: alex.lawson@socialsecurity-works.org.

Social Security Works for New Mexico

Debate rages in Washington about how to reduce our nation's growing federal deficit, and pundits and politicians alike propose cutting Social Security.

It doesn't seem to matter that Social Security has not caused the federal deficit, and the program has a \$2.5 trillion surplus today, which is projected to grow to \$4.2 trillion by 2025.¹ Nor does it seem to matter that the housing equity and retirement savings of many Americans collapsed during the nation's Great Recession. Cutting Social Security's protections – especially for middle-aged and young workers – will undermine Social Security as a financial foundation, and often a financial lifeline.

Social Security is paid for through dedicated taxes contributed by workers and their employers. That is why Social Security is a promise, a bond between generations that belongs to the people who have worked hard all their lives and to their families.

Social Security is family insurance protection against lost wages due to old age, disability, or death. The importance of Social Security's earned protections cannot be overstated:

- 53 million beneficiaries – around one in four households—receive Social Security.²
- 1 out of 3 Social Security beneficiaries is not a senior citizen.³
- Almost two out of three seniors rely on Social Security for half or more of their income.⁴
- The average Social Security benefit is less than \$13,000 a year (\$14,000 for retirees).⁵
- Social Security is the nation's largest disability

program, without which more than half of disabled workers would have incomes below the poverty line.⁶

- Nearly 9 percent of all U.S. children – about 6.5 million – receive Social Security or live in households where all or part of the income of the household comes from Social Security.⁷ Consequently, Social Security is the nation's largest and, despite its modest benefits, most generous children's program.

Clearly Social Security works for the nation and for the residents of every state and congressional district too. Social Security's average benefit is very modest, which is why America cannot afford to cut it. Instead, Congress should work hard to strengthen Social Security.

Social Security Works for New Mexico's Economy

- Social Security provides benefits to nearly 335,500 people, 1 out of 6 residents (16.9 percent).⁸
- Social Security lifts out of poverty a total of 129,000 New Mexico residents.⁹
- New Mexico residents receive Social Security benefits totaling over \$3.9 billion per year, an amount equivalent to 5 percent of the state's annual GDP (the total value of all goods and services produced).¹⁰

Social Security Works for New Mexico's Retired Workers

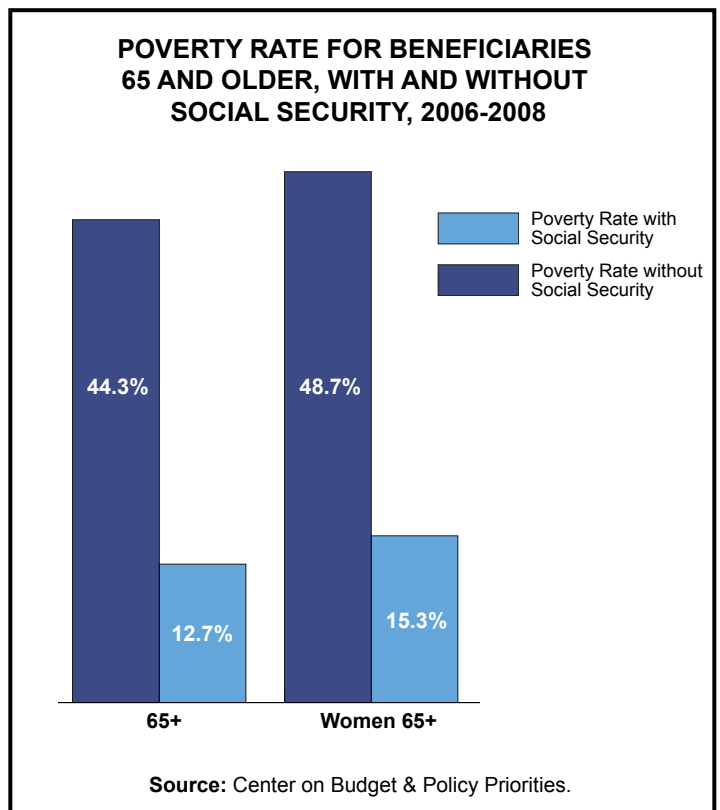

- Social Security provides benefits to more than 204,100 retired workers, 1 out of 10 residents (10.3 percent) and 6 out of 10 (66.6 percent) of all beneficiaries.¹¹
- The median benefit received by a retired worker in New Mexico is about \$12,700 annually.¹²
- Social Security lifts out of poverty 77,000 New Mexico residents aged 65 and older. Without Social Security, the elderly poverty rate would increase from about 1 out of 8 (12.7 percent) to more than 4 out of 10 (44.3 percent) residents.¹³

Social Security Works for New Mexico Women

- Social Security provides benefits to about 165,200 residents, 1 out of every 6 women (16.4 percent).¹⁴
- Social Security provides benefits to about 19,300 spouses, most of whom are women.¹⁵
- Women make up 55.2 percent of beneficiaries aged 65 and older in New Mexico.¹⁶
- Social Security lifts out of poverty 46,000 New Mexico women aged 65 and older. Without Social Security, the poverty rate of elderly women would increase from about 1 out of 6 (15.3 percent) to nearly half (48.7 percent) of all residents.¹⁷

Social Security Works for New Mexico Workers with Disabilities¹⁸

- Social Security provides disability benefits for about 53,200 workers, nearly 1 out of 6 (15.9 percent) of all beneficiaries.¹⁹
- The median benefit received by a disabled worker in New Mexico is about \$11,400 annually.²⁰

Social Security Works for New Mexico Widow(er)s

- Social Security provides survivors' benefits to more than 29,200 New Mexico widow(er)s, 8.7 percent of all beneficiaries.²¹
- The median benefit received by a widow(er) in New Mexico is about \$12,400 annually.²²

Social Security Works for New Mexico Children²³

- Social Security is the major life and disability insurance protection for more than 95 percent of New Mexico's 501,700 children.²⁴
- Social Security provides benefits to about 29,600 children, 8.9 percent of all beneficiaries.²⁵
- Social Security is the most important source of income for the nearly 51,700 children living in New Mexico's grandfamilies, which are households headed by a grandparent or other relative.²⁶

Social Security Works for New Mexico Latinos

- In New Mexico, Social Security provides benefits to nearly 1 out of 4 (23.5 percent) Latino households, more than 69,200 households.²⁷
- Nationwide, Social Security provides three-quarters (75.4 percent) of the total income of Latino elderly households receiving benefits, on average. Social Security is 100 percent of the income for more than 4 out of 10 (44.2 percent) of these Latino elderly households.
- Nationwide, without Social Security, the elderly Latino poverty rate would increase from roughly 1 out of 6 (17.9 percent) to half (50.7 percent) of all residents.²⁸
- Studies estimate that Latinos receive a rate of return on their Social Security contributions that is 35 to 60 percent higher than the overall population, more than any other group. That's because they tend to have lower lifetime income, longer life expectancies, higher incidence of disability and larger families.²⁹
- Social Security has a higher income replacement rate for lower-income earners. The median earnings of working-age Latinos are about \$30,000, compared to \$40,000 for all working-age people. Social Security provides average benefits of about \$12,200 and \$9,500 annually for Latinos and Latinas aged 65 and older, respectively.³⁰

Social Security Works for New Mexico Native Americans

- In New Mexico, Social Security provides benefits to 1 out of 5 (21.5 percent) Native American households, more than 9,700 households.³¹
- Nationwide, Social Security provides 90 percent of the income for 20 percent of Native American married couples and for 49 percent of Native American unmarried residents aged 65 and older.³²
- Social Security has a higher income replacement rate for lower-income earners. The median earnings of working-age Native Americans are about \$30,800, compared to \$40,000 for all working-

age people. Social Security provides average benefits of about \$13,900 and \$10,500 annually for Native American men and women aged 65 and older, respectively.³³

Social Security Works for New Mexico African Americans

- In New Mexico, Social Security provides benefits to 6,000 African Americans, more than 1 out of 8 (13.2 percent) African American residents.³⁴
- Nationwide, Social Security provides nearly three-quarters (72.4 percent) of the income of African American households with beneficiaries aged 65 and older, on average. Social Security is 100 percent of the total income for 4 out of 10 (39.5 percent) of these African American elderly households.³⁵
- Nationwide, 3 out of 10 (31.2 percent) of all African American beneficiaries receive disability benefits; for white beneficiaries it is about half of that number (15.2 percent).³⁶

Social Security Works for New Mexico's Working Families

- Through their hard work and payroll tax contributions, nearly all New Mexico workers earn Social Security's retirement, disability and survivorship protections for themselves and their families.
- Social Security is the most valuable disability and life insurance protection for most New Mexico workers. Nationwide, an estimated 3 out of 10 working-aged men and 1 out of 4 working-aged women will become severely disabled before reaching retirement age. An estimated 1 out of 11 working-aged men and 1 out of 17 working-aged women will die before reaching retirement age.³⁷
- A 30-year-old worker who earns about \$30,000 and who has a spouse and two young children, receives Social Security insurance protection equivalent to private disability and life insurance policies worth \$465,000 and \$476,000, respectively.³⁸

Social Security Works for New Mexico's Congressional Districts

CONGRESSIONAL DISTRICTS				
	State Total	1	2	3
Total annual benefits (\$ in millions)*	\$3,944M	\$1,340M	\$1,343M	\$1,262M
Number of residents in state/congressional district	1,984,356	675,973	634,477	651,776
Number of residents receiving Social Security benefits	335,471	108,978	117,610	108,883
Percent of residents receiving Social Security benefits	16.9%	16.1%	18.5%	16.7%
Social Security beneficiaries				
<i>Women beneficiaries</i>	165,243	N/A	N/A	N/A
<i>Retired worker beneficiaries</i>	204,134	67,536	71,607	64,991
<i>Disabled worker beneficiaries</i>	53,194	17,915	18,027	17,252
<i>Widow(ers) receiving benefits</i>	29,227	9,120	10,527	9,580
<i>Spouses receiving benefits</i>	19,302	5,668	7,628	6,006
<i>Children receiving benefits</i>	29,614	8,739	9,821	11,054

- ¹⁸ The number of Social Security disability beneficiaries cited here includes only those disabled workers receiving disability benefits. It does not include those disabled workers and "disabled adult children" who are recipients of Retirement and Survivors benefits. Hereinafter, any use of the term "disabled worker" will refer only to those disabled workers receiving disability benefits.
