

# Social Security Works for OHIO

Report prepared by Social Security Works and Strengthen Social Security

AUGUST 2010

## Acknowledgements

Social Security Works is grateful to the following for producing this report: Daniel Marans, a recent graduate of the Johns Hopkins University and a National Academy of Social Insurance Washington Intern, was the lead researcher whose commitment and excellence drove the project to its successful conclusion; and Frank Clemente, Alex Lawson and Judy Rein at Social Security Works. Kelly Olsen provided editorial support. Arloc Sherman, Senior Researcher, and Paul N. Van de Water, Senior Fellow, at the Center on Budget and Policy Priorities were very generous in providing advice and access to updated poverty data analyzed by the Center. Kirby G. Posey and David Getz, Survey Statisticians with the Income Statistics branch of the United States Census Bureau, generously provided data on the importance of Social Security as a source of income to household units. Alice Wade, Deputy Chief Actuary of the Social Security Administration, with the help of Virginia Reno, Vice President for Income Security at the National Academy of Social Insurance, graciously provided data on the value of Social Security's survivors and disability insurance. Graphic design was provided by Daniel Redding and Rachel Horlick of Magnetic State.

The mission of Social Security Works is to protect and improve the economic status of disadvantaged and at-risk populations, and, in so doing, to promote social justice for current and future generations of children as well as young, middle-aged and older adults. Social Security Works is a project of the Tides Advocacy Fund with generous support from The Atlantic Philanthropies.

[www.socialsecurity-works.org](http://www.socialsecurity-works.org)

The Strengthen Social Security Campaign is made up of more than 60 national organizations and many state organizations, representing more than 30 million Americans. The Campaign is united around core principles, which include that Social Security benefits should not be cut and, instead, should be increased for those who are most disadvantaged.

[www.strengthensocialsecurity.org](http://www.strengthensocialsecurity.org)

The data presented in this report speak volumes about the importance of Social Security to families, communities and state and local economies. We hope the report is useful to you as you work to strengthen Social Security in this 75th anniversary year. Please contact the Social Security Works Communications Director, Alex Lawson, if you have questions about this report: [alex.lawson@socialsecurity-works.org](mailto:alex.lawson@socialsecurity-works.org).

Nancy Altman and Eric Kingson  
Co-Directors, Social Security Works

# Social Security Works for Ohio

**D**ebate rages in Washington about how to reduce our nation's growing federal deficit, and pundits and politicians alike propose cutting Social Security.

It doesn't seem to matter that Social Security has not caused the federal deficit, and the program has a \$2.5 trillion surplus today, which is projected to grow to \$4.2 trillion by 2025.<sup>1</sup> Nor does it seem to matter that the housing equity and retirement savings of many Americans collapsed during the nation's Great Recession. Cutting Social Security's protections – especially for middle-aged and young workers – will undermine Social Security as a financial foundation, and often a financial lifeline.

Social Security is paid for through dedicated taxes contributed by workers and their employers. That is why Social Security is a promise, a bond between generations that belongs to the people who have worked hard all their lives and to their families.

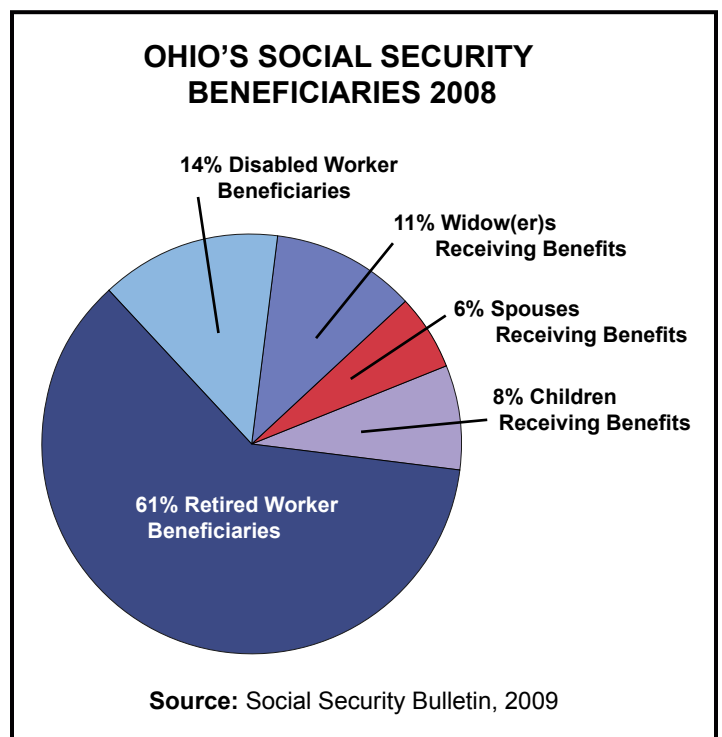

Social Security is family insurance protection against lost wages due to old age, disability, or death. The importance of Social Security's earned protections cannot be overstated:

- 53 million beneficiaries – around one in four households—receive Social Security.<sup>2</sup>
- 1 out of 3 Social Security beneficiaries is not a senior citizen.<sup>3</sup>
- Almost two out of three seniors rely on Social Security for half or more of their income.<sup>4</sup>
- The average Social Security benefit is less than \$13,000 a year (\$14,000 for retirees).<sup>5</sup>
- Social Security is the nation's largest disability

program, without which more than half of disabled workers would have incomes below the poverty line.<sup>6</sup>

- Nearly 9 percent of all U.S. children – about 6.5 million – receive Social Security or live in households where all or part of the income of the household comes from Social Security.<sup>7</sup> Consequently, Social Security is the nation's largest and, despite its modest benefits, most generous children's program.

Clearly Social Security works for the nation and for the residents of every state and congressional district too. Social Security's average benefit is very modest, which is why America cannot afford to cut it. Instead, Congress should work hard to strengthen Social Security.

## Social Security Works for Ohio's Economy

- Social Security provides benefits to 2,021,900 people, 1 out of 6 residents (17.6 percent).<sup>8</sup>
- Social Security lifts out of poverty a total of 779,000 Ohio residents.<sup>9</sup>
- Ohio residents receive Social Security benefits totaling over \$25.7 billion per year, an amount equivalent to 5.5 percent of the state's annual GDP (the total value of all goods and services produced).<sup>10</sup>

## Social Security Works for Ohio's Retired Workers

- Social Security provides benefits to 1,253,300 retired workers, 1 out of 10 residents (10.9 percent) residents and more than 6 out of 10 (62 percent) of all beneficiaries.<sup>11</sup>
- The median benefit received by a retired worker in Ohio is about \$14,400 annually.<sup>12</sup>
- Social Security lifts out of poverty 556,000 Ohio residents aged 65 and older. Without Social Security, the elderly poverty rate would increase from about 1 out of 12 (8 percent) to nearly half (46.7 percent) of all residents.<sup>13</sup>

## Social Security Works for Ohio Women

- Social Security provides benefits to more than 1,053,100 residents, 1 out of every 6 women (17.9 percent).<sup>14</sup>
- Social Security provides benefits to 119,500 spouses, most of whom are women.<sup>15</sup>
- Women make up 57.7 percent of beneficiaries aged 65 and older in Ohio.<sup>16</sup>
- Social Security lifts out of poverty 341,000 Ohio women aged 65 and older. Without Social Security, the poverty rate of elderly women would increase from about 1 out of 10 (10.1 percent) to more than half (51.5 percent) of all residents.<sup>17</sup>

## Social Security Works for Ohio Workers with Disabilities<sup>18</sup>

- Social Security provides disability benefits for more than 275,500 workers, 1 out of 8 (13.6 percent) of all beneficiaries.<sup>19</sup>
- The median benefit received by a disabled worker in Ohio is about \$11,300 annually.<sup>20</sup>

## Social Security Works for Ohio Widow(er)s

- Social Security provides survivors' benefits to more than 218,600 Ohio widow(er)s, 10.8 percent of all beneficiaries.<sup>21</sup>
- The median benefit received by a widow(er) in Ohio is about \$14,400 annually.<sup>22</sup>

## Social Security Works for Ohio Children<sup>23</sup>

- Social Security is the major life and disability insurance protection for more than 95 percent of Ohio's 2,731,800 children.<sup>24</sup>
- Social Security provides benefits to about 155,000 children, 7.7 percent of all beneficiaries.<sup>25</sup>
- Social Security is the most important source of income for more than 192,600 children living in Ohio's grandfamilies, which are households headed by a grandparent or other relative.<sup>26</sup>

## Social Security Works for Ohio African Americans

- In Ohio, Social Security provides benefits to 190,400 African Americans, 1 out of 7 (14.1 percent) of all African American residents.<sup>27</sup>
- Nationwide, Social Security provides nearly three-quarters (72.4 percent) of the income of African American households with beneficiaries aged 65 and older, on average. Social Security is 100 percent of the total income for 4 out of 10 (39.5 percent) of these African American elderly households.<sup>28</sup>
- Nationwide, 3 out of 10 (31.2 percent) of all African American beneficiaries receive disability benefits; for white beneficiaries it is about half of that number (15.2 percent).<sup>29</sup>

## Social Security Works for Ohio's Working Families

- Through their hard work and payroll tax contributions, nearly all Ohio workers earn Social Security's retirement, disability and survivorship protections for themselves and their families.
- Social Security is the most valuable disability and life insurance protection for most Ohio workers. Nationwide, an estimated 3 out of 10 working-aged men and 1 out of 4 working-aged women will become severely disabled before reaching retirement age. An estimated 1 out of 11 working-aged men and 1 out of 17 working-aged women will die before reaching retirement age.<sup>30</sup>
- A 30-year-old worker who earns about \$30,000 and who has a spouse and two young children, receives Social Security insurance protection equivalent to private disability and life insurance policies worth \$465,000 and \$476,000, respectively.<sup>31</sup>

## Social Security Works for Ohio's Congressional Districts
